It did not escape our attention that in adopting this manual of laboratory experiments, the instructor must pay attention to budgetary constraints. All experiments in this manual generally use only inexpensive pieces of equipment and glassware. A few spectrophotometers and pH meters are necessary in a number of experiments.

Asteroid Impacts: Laboratory Experiments and Scaling Laws

Laboratory experiments are limited to samples of centimeter size, while the asteroids range to many hundreds of kilo-meters in size. The response of a small target to impact is dominated by its material strength, while that of a large asteroid is dominated by gravitational forces. For the predomi-
